# Gamesafe project

---

At Gamesafe, we realized that gaming plays a big part in all of our lives, us crypto fanatics. That's why we launched our own project starting with the creation of a fair community-driven token.

---

# Marketplace

---

Like many of you, here at Gamesafe all of our staff is fully addicted to crypto.

That's why we had the idea to launch a digital games' marketplace which:

- Give the opportunity for the community to make money only by holding tokens
- Allow you to pay on the marketplace with \$GAMESAFE at the right price
- Users will earn rewards, get cheap games or gift cards!
- 5% of the total supply (which equals 10% of the circulating supply) will be used for the development of the marketplace, community giveaways, influencers, and marketing in general

---

# Marketplace

---

Indeed, you will be able to :

- Recharge the balance of your account on gaming platforms.
- Buy games (only PC games for now).
- Recharge the balance of your account on your favorite VIDEO GAMES' store.
  
- NEW: Any indie games developer will be able to sell games exclusively on Gamesafe.
- NEW: You will be able to pay for gaming-related products such as keyboards, controllers...

---

# Reward system

---

Thanks to the Binance Smart Chain, every holder is rewarded:

- 5% of each transaction is shared among holders.
- 5% of each transaction goes to the liquidity pool to create a rising price floor.

# Tokenomics

## Fair market supply Supply

1,000,000,000,000,000  
00 And we burned  
50% of the amount!

## 10% tax on each transaction

5% distributed to  
holders, 5% added  
to the liquidity

## Earn rewards holding

5% tax which profit  
to the holders on  
each transaction

Ownership  
renouncement  
Our community  
owns the token !

Locked liquidity  
pool  
Liquidity is locked  
for a year
